I was just able to sign it. I previously had issues signing in Adobe. Here is what I did.

- One the right hand side, select the Certificates icon (the green pen)
- Then at the top, select Sign Digitally
- Use your mouse to draw a box where you would like to sign.
- Once the box is created, you click Continue at the bottom right.
- Then sign at the bottom right.

Hope this help.

I'm not sure how to fix it.

Try to sign this pdf that I attached here. I did not sign it yet so it should let you sign with no issues.

Hey Meredith,

Please see the attached Lake Conestee Phase 2 signed QAPP and QAPP checklist. I need your signature on the checklist and I will send the final version to Nardina.

Sandra and I were able to discuss our comments and suggestions on the sampling event scoping meeting today and everything has been addressed. Thank you.

Best wishes,
